

Curriculum Vitae – Short version

Dr. Hermann Klug (♂, www.hermannklug.com), associate professor at Z_GIS, completed his academic qualifications with a PhD (Dr. rer. nat.) in Landscape Ecology and Geoinformatics in 2006. He finished his habilitation with the *venia docendi* in Geography and in Geoinformatics in 2015. At the [Paris-Lodron University of Salzburg](#) (Austria), he is head of the [Landscape Lab](#) with a special scientific emphasis on applying the 'Automated Geosynthesis' approach to transdisciplinary holistic landscape planning approaches for integrated water resources management, multifunctional landscapes and landscape management. Presently, Dr. Klug is focussing on Mountainbiking in landscapes ([SMART Biking](#)). He led and participated in many international research cooperations and authored many scientific journal publications. Besides teaching in Geoinformatics and Geography at BSc, MSc, and PhD level in Salzburg, he is providing courses in Timisoara (Romania), at Victoria University of Wellington (New Zealand), University of Applied Sciences Villach (Carinthia), University of Applied Sciences in Salzburg, Pedagogic University in Linz (Upper Austria), and at the University of Pécs (Hungary).
